

BIOSECURITY HAND DISINFECTION TURNSTILE

UNIDOZ Biosecurity Hand Disinfection Turnstile is designed to ensure controlled and effective hand disinfection before entering hygiene-sensitive areas. The system combines automatic disinfectant dosing with an integrated turnstile mechanism that allows passage only after the disinfection process has been completed. The device is ideal for use in food processing plants, agricultural facilities, pharmaceutical environments, warehouses, and industrial production areas where strict hygiene procedures are required.

PRODUCT CODE:
UBTF - Floor mounted

SPECIFICATIONS:

- **Application:** Controlled hand disinfection before access to clean zones
- **Construction Material:** Plastic and Stainless steel construction
- **Operation:** Automatic hand disinfection with turnstile release
- **Disinfection Method:** Touchless hand disinfection
- **Turnstile Type:** Single-lane access control
- **Power Supply:** 230V/50 Hz
- **Mounting Options:** Floor mounted, wall mounted
- **Disinfectant Compatibility:** Alcohol-based hand disinfectants
- **Usage Areas:** Food industry, farms, production plants, warehouses, healthcare facilities
- **Safety Features:** Controlled entry only after successful disinfection
- **Emergency Exit:** Automatic gate opening in the event of a power outage, and an emergency exit button
- **Additional Options:** RFID access control integration
- **Available colors:** White, Red, Blue, Yellow

TRANSPORT DIMENSIONS:

- **Package Size (mm):**
h: 600 x w: 800 x d: 500;
h: 1000 x w: 200, d: 200
- **Total Weight:** 38 kg
- **Pallet (mm):** 1200 x 800 x 2100
- **Number of Packages per pallet:** 8
- **Number of Layers:** 4
- **Total pallet Weight (kg):** 304
